Contents Volume 58, 2000

Research Papers

New approaches to the characterization of clay-bearing, densely jointed and weak rock masses
C. Gokceoglu and H. Aksoy 1

Geostatistical evaluation of dimension-stone quarries
A.E. Tercan and Y. Özçelik 25

Rock stress interpretations from Mt. Torigata (Japan) based on calcite strain gauge and differential strain curve analysis
S.S. Kang, N. Nakamura, Y. Obara and K. Sugawara 35

Estimation of earthquake hazard based on extremes of local integral random functions
A.D. Akkaya and M.S. Yücemen 53

Mass rock creep and landsliding on the Huangtupo slope in the reservoir area of the Three Gorges Project, Yangtze River, China
Q.L. Deng, Z.Y. Zhu, Z.Q. Cui and X.P. Wang 67

Book Review

Localization and Bifurcation Theory for Soils and Rocks, Proc. 4th Int. workshop on Localization and Bifurcation Theory from Soils and Rocks:
Adachi, T., Oka, F., — Yashima, A. 85

Erratum

"Seismicity, seismotechtonics and seismic hazard of Italy" [Engineering Geology 55 (2000) 241–266]
Romeo, R., Pugliese I. 87

Research Papers

Landslide fatalities and the evaluation of landslide risk in Italy
F. Guzzetti 89

The effects of rockfall volume on runout distance
Y. Okura, H. Kitahara, T. Sammori and A. Kawanami 109

Porosity influence on the shear strength of granular material-clay mixtures
L.E. Vallejo and R. Mawby 125

The influence of weak rocks on excavation and support of the Beykoz Tunnel, Turkey
S. Dalgıç 137

Cultivability of microorganisms introduced into a compacted bentonite clay buffer under high-level radioactive waste repository conditions
K. Pedersen, M. Motamedi, O. Karnland and T. Sandén 149

Rock deterioration in the Royal Tomb of Seti I, Valley of the Kings, Luxor, Egypt
R.A.J. Wüst and J. McLane 163

Characteristics of hazards induced by extremely heavy rainfall in Central Taiwan Typhoon Herb
M.L. Lin and F.S. Jeng 191

Evaluation of dimension stone in gneissic rocks — a case history from southern Finland
H. Loudes, O. Selonen and K. Pääkkönen 209

Relationships between joint separation and faulting: an initial numerical appraisal
C. Tansi, M. Sorriso-Valvo and R. Greco 225

LANDSLIDE HAZARDS IN SEISMICALLY ACTIVE REGIONS: EGS XXIII GENERAL ASSEMBLY — NATURAL HAZARDS (NH) GROUP APRIL 20–24, 1998, NICE, FRANCE

J. Wasowski, D.K. Keefer and R.W. Jibson (Editors)

Preface v

Research Papers

Statistical analysis of an earthquake-induced landslide distribution — the 1989 Loma Prieta, California event
D.K. Keefer 231

A seismic landslide susceptibility rating of geologic units based on analysis of characteristics of landslides triggered by the 17 January, 1994 Northridge, California earthquake
M. Parise and R.W. Jibson 251

A method for producing digital probabilistic seismic landslide hazard maps
R.W. Jibson, E.L. Harp and J.A. Michael 271

Evaluating seismically induced mass movement hazard in Caramanico Terme (Italy)
J. Wasowski and V. Del Gaudio 291

Slope vulnerability to earthquakes at subregional scale, using probabilistic techniques and geographic information systems
L. Luzi, F. Pergalani and M.T.J. Terlien 313

Seismically induced landslide displacements: a predictive model
R. Romeo 337

Landslides and other surface effects induced by the 1997 Umbria–Marche seismic sequence
E. Esposito, S. Porfido, A.L. Simonelli, G. Mastrolorenzo and G. Iaccarino 353

Magnitude–distance relations for earthquake-induced landslides in Greece
G.A. Papadopoulos and A. Plessa 377

Earthquake-induced ground failures in Italy
A. Prestininzi and R. Romeo 387
